PROFILE

Web Developer with 4+ years of experience building fast, responsive, and user-focused websites using HTML, CSS, JavaScript, React, and Tailwind. Strong in UI implementation, performance optimization, and converting designs into clean, scalable code. Skilled in leveraging AI-powered tools to accelerate development, improve UX, automate workflows, and enhance remote collaboration. Thrives in remote-first environments, communicates clearly across time zones, and takes ownership of the full development lifecycle.

PROFESSIONAL EXPERIENCE

Web Developer - Creative Place LTD.

2022 – 2025

- Built and optimized responsive websites using HTML, CSS, JavaScript, React components, and WordPress.
- Improved Core Web Vitals and site performance through modern optimization techniques.
- Debugged plugin conflicts, JS errors, PHP issues, and complex CMS problems.
- Integrated SEO tools, GA4, schema markup, and API-driven components.
- Used AI tools (ChatGPT, GitHub Copilot, Figma AI) to speed up code refactoring, generate design variations, and automate documentation.
- Worked remotely with designers, developers, and marketers using Git, Slack, and Notion.
- Managed multiple projects independently while maintaining consistent delivery standards.

Website Designer- Freelance/Remote

2020 – Present

- Designed and developed custom websites using WordPress, Elementor, HTML, CSS, JS, and Tailwind.
- Converted UI/UX wireframes into pixel-perfect, responsive web interfaces.
- Integrated APIs, booking systems, eCommerce modules, and dynamic components.
- Optimized websites for global performance, accessibility, SEO, and security.
- Leveraged AI tools (ChatGPT, Midjourney, Figma AI, automatic code linters) to speed up troubleshooting, prototype UI concepts, and enhance creative and technical workflows.
- Provided documentation, Loom walkthroughs, and CMS training for international clients.
- Collaborated asynchronously across time zones with clients in the US, Europe, and Middle East.
